

Summer Programs at Valley Preschool!

Theme Camps & Spanish Immersion Camps

Monday-Wednesday 9am-12pm and 12:30pm-3:30pm

Bring a Water Bottle – snacks provided

Lunch Bunch also available from noon-12:30pm M-W.

Bring a bag lunch and enjoy extra time with friends!

Join us for a summer of **fun exploration, learning** and **PLAY!** 3-day **Summer Camps** will be held every week in June and July (except 4th of July week). Choose from our different Theme Camps and Spanish Immersion Camps.

****No prior knowledge of Spanish is required for the Spanish Camps.****

Our camps have a 2-year (minimum) curriculum rotation, so students can attend the same camp multiple years and enjoy different activities and experiences each year!

Prior drop off experience is required for all campers.

See below for this year's **AWESOME** line-up . . .

2019 Classes:

Spanish Immersion 3-9 yrs cost: \$85.00 per session

June 10-12, 24-26 & July 8-10

Join our Spanish Immersion Camps this summer! Students can join with or without Spanish language experience. The immersion setting is a natural environment for learning the language, which means students who are at different levels (beginner through advanced) can be continuously challenged and share in the success. While your child is immersed in the Spanish language, they will participate in free exploration, small group activities and art projects, stories, snack, games, and outside time. Not only will your child begin to learn the Spanish language, they will also start to develop knowledge and an appreciation of other cultures by singing songs, trying traditional foods and reading stories. Sessions will be theme-based, and have no prerequisite required!

Young Picassos 3-7 yrs cost: \$85.00

June 17-19

Do you have a budding artist on your hands or someone who LOVES to just draw, paint, sculpt, and create? If so, then this is the class for them! Join us as we learn about a new artist each day and have fun making a new creation to bring home at the end of each class. Have fun exploring the different techniques using a variety of mediums. Kids will enjoy creating their own works of art they'll be proud of!

Music, Music Everywhere! 3-7 yrs cost: \$85.00

June 17-19

Making and playing music can be so much FUN! Students in this class will explore the many sounds around us, including traditional and non-traditional music. We will wiggle and dance, play with props and also have fun learning hands-on about a featured instrument each day. Students will explore the musical families and will make their very own instruments to bring home! Students in this class will enjoy listening to and participating in a variety of musical activities. This fun afternoon class includes reading musical stories, composing music, creating and playing instruments, free exploration, snack, and outside play time.

STEM Explorers 3-7 yrs cost: \$85.00

July 8-10

Science, Technology, Engineering and Mathematics (STEM) are neat and exciting areas to have fun with and learn about! Research has proven that children who are exposed to early math skills in their preschool years are more likely to enjoy and succeed in math when they are older. Early experiences and enjoyment in math are also linked to reading success in elementary school! Our goal is to give your child the right impression about each of these – they're terrific! Each day we will introduce a new concept. Centers will be geared to help students explore the concept of the day. We will also have a story time, snack, group activity, and even outdoor play activity to support the concepts! Get ready for a totally cool class!

Lego Engineers 3-7 yrs cost: \$95.00

July 15-17

Come explore the world of Legos with us! Most kids already know: Legos are FUN to imagine and play with! Students will have plenty of time to create, explore and use their imaginations to design their own projects. Teachers will also guide a small structured project each day that will require practicing step-by-step instructions. Complete the day with Lego stories, snack and outdoor time and you have a great day of Lego fun!

Water Works! 3-7 yrs cost: \$85.00

July 15-17

What better way to spend hot summer afternoons than exploring this amazing liquid? In this class, students will enjoy a variety of activities ranging from science experiments to all-out fun and games! For this class students should wear a swim suit underneath their clothing and bring a towel each day. Free time and snack are provided daily. We're going to have fun getting wet. . .SPLASH!

An environment of discovery
for young children
